Directors' Report

1. General Information

Directors

The names of the directors in office at any time during, or since the end of the period are:

Sailesh Chimanlal Mehta
Prakash Wazirchand Seth (resigned on 8th October 2025)
Clifford Martin Gale
Tapan Kumar Chatterjee
Tarun Sinha

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

Principal Activities

The principal activities of the consolidated group during the year were sales and handling of explosives and explosive related raw materials, blasting services and operation expertise to the mining and explosives industries.

No significant change in the nature of these activities occurred during the year.

2. Business Review

Overview of the Group

These consolidated financial statements have been prepared in accordance with Australian Accounting Standards - AASB 1060 General Purpose Financial Statements - Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities.

Operating Results

The profit of the consolidated group for the financial year after providing for income tax amounted to \$2,785,062 (2024: \$6,395,454).

Review of Operations

A review of the operations of the consolidated group during the 12 month period and the results of those operations found that during the period, the consolidated group continued to engage in its principal activity, the results of which are disclosed in the attached financial statements.

ABN: 67 600 020 488

Directors' Report (continued)

3. Other Items

Significant Changes in State of Affairs

On 8th October 2025, Deepak Mining Solutions Limited acquired the remaining 15% stake (16,800 ordinary shares) in the Group from an existing shareholder to become the sole shareholder of the Group.

No other significant changes in the Group's state of affairs occurred during the 12 month period.

After Balance Day Events

No matters or circumstances have arisen since the end of the 12 month period which significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in future financial years.

Dividends

A dividend of \$3,060,960 in respect of FY25 was declared in September 2025. \$459,145 was paid to the attributable shareholder in October 2025. The balance of dividend attributable to Deepak Mining Solutions Limited (\$2,601,816) remains unpaid as at 31 March 2026.

Environmental Issues

The Group's operations are regulated by significant environmental regulation under laws of the Commonwealth and State or Territory.

Likely Developments

The Group remains on a steady growth trajectory increasing its customer base year-on year. The Group expects this growth to continue in the future.

Auditors Independence Declaration

The lead auditor's independence declaration made under Section 307C of the Corporations Act 2001 is set out on page 5 for the 12 months ended 31 March 2026.

Proceedings on Behalf of Group

No person has applied for leave of Court to bring proceedings on behalf of the Group or intervene in any proceedings to which the Group is a part for the purpose of taking responsibility on behalf of the Group for all or any part of those proceedings during the year.

The Group was not a part to any such proceedings during the year.

Signed in accordance with a resolution of the Board of Directors

ABN: 67 600 020 488

Notes to the Financial Statements For the 12 Months Ended 31 March 2026

General Information

This financial report represents Platinum Blasting Services Pty Ltd and Controlled Entity (the 'consolidated group' or 'group'). Platinum Blasting Services Pty Ltd is a company limited by shares, incorporated and domiciled in Australia.

The separate financial statements of the parent entity, Platinum Blasting Services Pty Ltd, have not been presented within this financial report as permitted by amendments made to the *Corporations Act 2001* effective as at 29 June 2011.

The financial statements were authorised for issue by the directors of the Company on the date of the signing of the Directors' report.

1. Accounting Policies

Basis of Preparation

These financial statements have been prepared for the purpose of reporting to the Group's parent entity to satisfy group reporting requirements and do not constitute statutory financial statements prepared for the purposes of the *Corporations Act 2001*.

Notwithstanding the above, the financial statements have been prepared in accordance with Australian Accounting Standards - Simplified Disclosures Requirements and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*.

The financial statements have been prepared on an accruals basis and are based on historical costs unless otherwise stated in the notes. The material accounting policies that have been adopted in the preparation of this report are as follows.

Certain comparative figures have been reclassified to conform with the financial statement presentation adopted for the current year.

a) Principles of Consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of the Parent Platinum Blasting Services Pty Ltd and its subsidiary Platinum Blasting Services (Logistics) Pty Ltd. Subsidiaries are entities the parent controls. The parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The reporting period of the parent and its subsidiary is identical and a list of the subsidiary is provided in Note 20.

The assets, liabilities and results of all subsidiaries are fully consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Inter-company transactions, balances and unrealised gains or losses on transactions between Group entities are fully eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

PLATINUM BLASTING SERVICES PTY LTD AND CONTROLLED ENTITY

ABN: 67 600 020 488

Notes to the Financial Statements For the 12 Months Ended 31 March 2026 Accounting Policies (continued)

Goodwill

Goodwill is carried at cost less any accumulated impairment losses. The amount of goodwill recognised on acquisition of each subsidiary in which the Group holds a less than 100% interest will depend on the method adopted in measuring the non-controlling interest. The Group can elect in most circumstances to measure the non-controlling interest in the acquiree either at fair value ('full goodwill method') or at the non-controlling interest's proportionate share of the subsidiary's identifiable net assets ('proportionate interest method'). In such circumstances, the Group determines which method to adopt for each acquisition and this is stated in the respective notes to these financial statements disclosing the business combination.

Under the full goodwill method, the fair value of the non-controlling interests is determined using valuation techniques which make the maximum use of market information where available. Under this method, goodwill attributable to the non-controlling interest is recognised in the consolidated financial statements.

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill on acquisition of associates is included in investments in associates.

Goodwill is tested for impairment annually and is allocated to the group's cash-generating units or groups of cash-generating units, which represents the lowest level at which goodwill is monitored but where such level is not larger than an operating segment. Gains and losses on the disposal of an entity include the carrying amount of goodwill related to the entity sold.

b) Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognized for all taxable temporary differences except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or in respect of taxable temporary differences associated with investment in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

PLATINUM BLASTING SERVICES PTY LTD AND CONTROLLED ENTITY

ABN: 67 600 020 488

Notes to the Financial Statements For the 12 Months Ended 31 March 2026 Accounting Policies (continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset or liability is settled based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognized outside profit and loss is recognized outside profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

c) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of manufactured products includes direct materials, direct labour and an appropriate portion of variable and fixed overheads. Overheads are applied on the basis of normal operating capacity. Costs are assigned on the basis of weighted average costs.

d) Property, Plant and Equipment

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than its estimated recoverable amount, the carrying amount is written down immediately to its estimated recoverable amount and impairment losses recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present.

The cost of fixed assets constructed within the consolidated group includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised as expenses in profit or loss in the financial period in which they are incurred.

PLATINUM BLASTING SERVICES PTY LTD AND CONTROLLED ENTITY

ABN: 67 600 020 488

Notes to the Financial Statements For the 12 Months Ended 31 March 2026 Accounting Policies (continued)

Depreciation

The depreciable amount of all fixed assets including buildings and capitalised lease assets, but excluding freehold land, is depreciated on a straight-line basis over the asset's useful life to the consolidated group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Buildings	0.9% to 1.7%
Computer equipment	33%
Computer software	33%
Furniture and Fittings	10%
Mobile Processing Units (MPU's)	8.33%
Motor vehicles	20%
Plant and equipment	10%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are recognised in profit or loss when the item is derecognised. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

e) Impairment of Assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include considering external sources of information and internal sources of information, including dividends received from subsidiaries, associates or joint ventures deemed to be out of pre-acquisition profits. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. in accordance with the revaluation model in AASB 116: Property, Plant and Equipment). Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

PLATINUM BLASTING SERVICES PTY LTD AND CONTROLLED ENTITY

ABN: 67 600 020 488

Notes to the Financial Statements For the 12 Months Ended 31 March 2026 Accounting Policies (continued)

f) Provisions

Provisions are recognised when the group has a legal or constructive obligation, as a result of past events, for which it is probably that an outflow of economic benefits will result and that outflow can be reliably measured.

g) Employee Benefits

Provision is made for the Group's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs while employee benefits that are not expected to be settled with one year are measured as the present value of expected future payments to be made.

h) Going concern

The directors are of the opinion that the Group has adequate resources to continue as a going concern in the foreseeable future.

To support ongoing operations and future expansion, the Group has secured additional working capital funding. In addition, the Group now has the full backing of Deepak Fertilisers and Petrochemicals Corporation Limited Group as the sole shareholder.

i) Current / Non-current distinction

Assets

The Group classifies assets as current when: (a) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle; (b) it holds the asset primarily for the purpose of trading; (c) it expects to realise the asset within twelve months after the reporting period; or (d) the asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Liabilities

The Group classifies liabilities as current when: (a) it expects to settle the liability in its normal operating cycle; (b) it holds the liability primarily for the purpose of trading; (c) the liability is due to be settled within twelve months after the reporting period; or (d) it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

PLATINUM BLASTING SERVICES PTY LTD AND CONTROLLED ENTITY

ABN: 67 600 020 488

Notes to the Financial Statements For the 12 Months Ended 31 March 2026 Accounting Policies (continued)

j) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

k) Revenue from contracts with customers

The Group is in the business of selling explosives and providing blasting and operational expertise services to the mining and explosives industries. Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group concluded that it is the principal in its revenue arrangements because it controls the goods or services before transferring them to the customer.

Sales of explosives

Revenue from sale of explosives is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the equipment at the customer's location. The normal credit term is 30 days upon delivery.

The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of and handling of explosives, the Group considers the effects of variable consideration, existence of a significant financing components, non-cash consideration, and consideration payable to the customer (if any).

Provision of blasting services and operational expertise

The Group recognises revenue from the provision of blasting and operational expertise services over time because the customer simultaneously receives and consumes the benefits provided to them. The Group uses an input method in measuring progress of the services because there is a direct relationship between the Group's effort (i.e., based on the labour hours incurred) and the transfer of service to the customer. The Group recognises revenue on the basis of the labour hours expended relative to the total expected labour hours to complete the service.

l) Trade and Other Receivables

Trade and other receivables include amounts due from customers for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Refer to Note 1(e) for further discussion on the determination of impairment losses.

PLATINUM BLASTING SERVICES PTY LTD AND CONTROLLED ENTITY

ABN: 67 600 020 488

Notes to the Financial Statements For the 12 Months Ended 31 March 2026 Accounting Policies (continued)

m) Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the Group that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

n) Borrowings

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred. No borrowing costs have been capitalised in the reporting period.

o) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash-flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

PLATINUM BLASTING SERVICES PTY LTD AND CONTROLLED ENTITY

ABN: 67 600 020 488

Notes to the Financial Statements For the 12 Months Ended 31 March 2026 Accounting Policies (continued)

p) Financial Instruments

Financial instruments are recognised initially using trade date accounting, i.e. on the date that the Group becomes party to the contractual provisions of the instrument.

On initial recognition, all financial instruments are measured at fair value plus transaction costs (except for instruments measured at fair value through profit or loss where transaction costs are expensed as incurred).

Financial assets

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification

On initial recognition, the Group classifies its financial assets as measured at amortised cost or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets.

Amortised Cost

Assets measured at amortised cost are financial assets where:

- the business model is to hold assets to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows are solely payments of principal and interest on the principal amount outstanding.

The Group's financial assets measured at amortised cost comprise trade and other receivables and cash and cash equivalents in the statement of financial position.

Subsequent to initial recognition, these assets are carried at amortised cost using the effective interest rate method less provision for impairment.

Interest income, foreign exchange gains or losses and impairment are recognised in profit or loss. Gain or loss on derecognition is recognised in profit or loss.

PLATINUM BLASTING SERVICES PTY LTD AND CONTROLLED ENTITY

ABN: 67 600 020 488

Notes to the Financial Statements For the 12 Months Ended 31 March 2026 Accounting Policies (continued)

Impairment of financial assets

Impairment of financial assets is recognised on an expected credit loss (ECL) basis for the following assets:

- financial assets measured at amortised cost; and
- contract assets.

When determining whether the credit risk of a financial assets has increased significant since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment and including forward looking information.

The Group uses the presumption that an asset which is more than 30 days past due has seen a significant increase in credit risk.

The Group uses the presumption that a financial asset is in default when:

- the other party is unlikely to pay its credit obligations to the Group in full, without recourse to the Group to actions such as realising security (if any is held); or
- the financial assets are more than 90 days past due.

Credit losses are measured as the present value of the difference between the cash flows due to the Group in accordance with the contract and the cash flows expected to be received. This is applied using a probability weighted approach.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities

The Group measures all financial liabilities initially at fair value less transaction costs, subsequently financial liabilities are measured at amortised cost using the effective interest rate method.

Notes to the Financial Statements For the 12 Months Ended 31 March 2026

2. Critical Accounting Estimates and Judgments

The directors make estimates and judgements during the preparation of these financial statements regarding assumptions about current and future events affecting transactions and balances.

These estimates and judgements are based on the best information available at the time of preparing the financial statements, however as additional information is known then the actual results may differ from the estimates.

The significant estimates and judgements made have been described below.

Impairment of goodwill

The Group assesses whether goodwill has suffered any impairment at the end of each reporting period in accordance with AASB136.

In determining the recoverable amount, management takes into consideration various factors such as the current market conditions, performance indicators and past financial results.

Estimation of useful lives of property, plant and equipment

The Group determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment when the published guidance from the Australian Taxation Office is not suitable or available for the asset in question.

In determining the useful life of the asset, management takes into account factors such as current condition of the asset, how the asset will be used within the business as well as any learnings from past experience.

Impairment of property, plant and equipment

The Group assesses impairment at the end of each reporting period by evaluating conditions specific to the Group that may be indicative of impairment triggers.

Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

Extension options for leases

When the Group has the option to extend a lease, management uses its judgement to determine whether or not an option would be reasonably certain to be exercised. Management considers all facts and circumstances including their past practice and any cost that will be incurred to change the asset if an option to extend is not taken, to help them determine the lease term.

17 Leases

Company as a lessee

The Group has leases over a range of assets including plant and equipment, land and buildings, vehicles and IT equipment.

Information relating to the leases in place and associated balances and transactions are provided below.

Terms and conditions of leases

Land and building leases consist of the Corporate office building with parking bays, explosives storage and handling facility, maintenance workshop, ammonium nitrate storage compound, and land where the Emulsion Plant is located. Expiry of the leases range from 1 to 4 years with varying terms around rate adjustments and extension options.

Motor vehicle leases relate to light vehicles used by operations personnel have less than 1 year expiry. The rentals are fixed, but can be extended if required.

2026 (These balances are included in the PPE balances in Note 12)

Notes to the Financial Statements For the 12 Months Ended 31 March 2026

23 Financial Risk Management (continued)

Derivatives - Cash Flows Hedge

At balance date, the Group had no hedges in place.

Credit Risk

Credit risk arises from cash and cash equivalents, held to maturity investments, favourable derivative financial instruments and deposits with banks and financial institutions, as well as credit exposure to customers, including outstanding receivables.

i) Impaired trade receivables

Individual receivables which are known to be uncollectible are written off by reducing the carrying amount directly. The other receivables are assessed collectively to determine whether there is objective evidence that an impairment has been incurred but not yet been identified. For these receivables the estimated impairment losses are recognised in a separate provision for doubtful debts.

During the year, a customer entered insolvency, resulting in a specific impairment being recognised. The loss has been measured net of expected recoveries from trade credit insurance.

As at balance date, the allowance for doubtful debts of \$33,047 relates to this specific impaired receivable.

Directors Declaration

For the 12 Months Ended 31 March 2026

In the directors' opinion:

- a) The financial statements and notes set out on pages 6 to 30 are in accordance with the *Corporations Act 2001*, including:
 - I. Complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - II. Giving a true and fair view of the Group's financial position as at 31 March 2026 and of its performance for the financial year ended on that date, and
- b) There are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

Director

Cliff Gale
